T "Genetic analysis of the dTDP-rhamnose biosynthesis region of the tentional homologs of rfbB and rfbA in the rff cluster and correct the functional homologs of rfbB and rfbA in the rff cluster and correct location of the rffE gene.";

I Deacteriol. 177:5539-5546 (1995).

- CATALYTIC ACTIVITY: dTDP-glucose = dTDP-4-dehydro-6-deoxy-D-glucose + H(2)0.

- COPACTOR: NAD.

- PATHWAY: DTDP-L-RHAMNOSE BIOSYNTHESIS WITHIN THE O ANTIGEN BIOSYNTHESIS.

- BATHWAY: BELONGS TO THE SUGAR EPIMERASE FAMILY. DTDP-GLUCOSE DEHYDRATASE SUBFAMILY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              7 KIEVAGHRGLVGSAIVRKLQEQGFTNLV------LKTHAELDLTRQADVES----

Sequence 2, Application US/09318271A

Patent No. US20020012979A1

GENERAL INCOMMATION:

APPLICANT: Berry, Alan

APPLICANT: Running, Jeffrey A.

APPLICANT: Running, Jeffrey A.

APPLICANT: Burlingame, Richard P.

TITLE OF INVENTION: "VITAMIN C PRODUCTION IN MICROORGANISMS AND PLANTS"

FILE REFERENCE: 3161-24

CURRENT APPLICATION NUMBER: 06/125,073

EARLIER PILING DATE: 1999-05-25

EARLIER PILING DATE: 1999-03-17

EARLIER PILING DATE: 1999-03-18

EARLIER PILING DATE: 1999-03-18

EARLIER FILING DATE: 1998-06-08

NUMBER OF SEQ ID NOS: 15

SOFTWARE: PatentIn Ver. 2.0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             61 VILAAAKVGGIHANNTYPADFIGVNLQIQTNVIHSAYEHGVKKLLFLGSSCIYPKFAPQP 120

GENERAL INFORMATION:

APPLICANT: Berry, Alan

APPLICANT: Severson, David K.

APPLICANT: Burlingame, Withard P.

TITLE OF INVENTION: "VITAMIN C PRODUCTION IN MICROORGANISMS AND PLANTS"

FILLS REFRENCE: 3161-24

CURRENT PLING DATE: 1999-05-25

EARLIER APPLICATION NUMBER: 60/125,073

EARLIER PLING DATE: 1999-03-17

EARLIER PLING DATE: 1999-03-18

EARLIER PLING DATE: 1999-03-18

EARLIER PLING DATE: 1999-03-18

Sequence 1, Application US/09318271A

Patent No. US20020012979A1

GENERAL INFORMATION:

APPLICANT: Berry, Ala

APPLICANT: Severson, David K.

APPLICANT: Severson, David K.

APPLICANT: Severson, David K.

TILE OF INVENTION: "VITAMIN C PRODUCTION IN MICROORGANISMS AND PLANTS"

FILE REFERENCE: 3161-24

CURRENT APPLICATION NUMBER: US/09/318,271A

CURRENT PILING DATE: 1999-03-17

EARLIER APPLICATION NUMBER: 60/125,073

EARLIER APPLICATION NUMBER: 60/125,073

EARLIER PILING DATE: 1999-03-18
